

# JIHAD ALDABOUI

## BACK-END DEVELOPER

Tabarbour, Amman | jihadaldabouqi53@gmail.com | +962782901115 | Linked In: [Jihad Aldabouqi](#)

### SUMMARY

Artificial Intelligence student specializing in deep learning, computer vision, and backend development. Experienced in building AI-driven platforms from concept to deployment. Skilled in Django, ASP.NET MVC, REST APIs, and AI model integration, with proven leadership in team projects. Passionate about applying AI to solve real-world problems, improve efficiency, and deliver user-friendly solutions.

### EXPERIENCE

**Full-Stack Developer Trainee – Orange Coding Academy** Oct 2025 - Present

- Intensive training in full-stack web development covering HTML, CSS, JavaScript, UI/UX Design, PHP, and Laravel.
- Developed responsive front-end layouts and dynamic interfaces following UX best practices.
- Built and maintained RESTful APIs and backend systems using Laravel.
- Collaborated on team projects simulating real-world development workflows.

**AI Developer – NABATATI Platform (Graduation Project)** Mar 2025 - Jun 2025

- Developed a deep learning-powered web platform using CNN models to diagnose seven olive plant conditions with high accuracy, improving early disease detection.
- Designed an image upload system, dynamic database, and user-friendly interface, enabling farmers to easily submit cases and track diagnosis history.
- Integrated expert consultation and real-time messaging features, contributing to reduced agricultural losses and enhanced farmer support.

**Internship - Department of Statistics** Jul 2025 - Sep 2025

- Worked on ASP.NET, Oracle SQL, WPF, and Windows Forms applications for internal use.
- Assisted in creating and updating databases for statistical data.
- Supported development tasks and learned best practices from the team.

### PROJECTS

**E-Commerce Web Application**

University of Engineering Process Cohort

- Automotive Technology.
- Technological Advancements within the current Chemical & Process Industry".
- Other relevant information.

## SKILLS

---

Django REST Framework	AI Model Development	ASP.NET MVC
CNN (Convolutional Neural Networks)	Postman API Testing	Python Programming

## EDUCATION

---

Bachelor's in Data Science and Artificial Intelligence Al-Hussain Bin Talal University	Oct 2021 – Jun 2025
---	---------------------

## ADDITIONAL INFORMATION

---

- **Languages:** Arabic (Native), English (Intermediate)
- **Certifications:** Completed Arduino Programming Course with the Crown Prince Foundation.
